What happened to your memories?

They fade...

What happened to your days?

They erase...

It's part of life,

People fade away.

It's part of dreaming,

The world will fade to gray.

Who will be there

To tell you it's okay?

What happens to the life you live?

Oh... It changes.

What happens to your best of friends?

They turn away.

It's part of hope,

It's part of the world.

It's part of love,

People do get hurt.

It's part of grief,

It's why we live through hell.

It's called Life,

It's why we Die...

As you get older,

You will learn to understand...

But if you are younger,

You will learn to find you way...

It's part of life,

People fade away.

It's part of dreaming,

The world will fade to gray.

It's part of hope,

It's part of who we are.
