

## Woody Guthrie "Keep That Oil A-Rollin'"

Visit "[Keep That Oil A-Rollin'](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You oil field workers, come and listen to me  
I'm goin' to tell you a story about old John D.  
That company union made a fool out of me.  
That company union don't charge no dues  
It leaves you a-singing them Rockefeller blues.  
That company union made a fool out of me.

Takes that good ole C.I.O., boys  
To keep that oil a-rollin', rollin' over the sea.  
Takes that good ole C.I.O., boys  
To keep that oil a-rollin' over the sea.

Drilling oil to beat Japan  
But the company union don't give a damn.  
That company union made a fool out of me.  
The oil field workers and the NMU  
Going to beat Hitler, and damn quick, too.  
That company union made a fool out of me.  
Old Berlin to Tokyo  
Tanks can't roll if the oil don't flow.  
That company union made a fool out of me.  
Canada to Mexico  
They're joining up with the C.I.O.  
That company union made a fool out of me.

C.I.O. is the place for me  
When this war is over, I want to be free  
That company union made a fool out of me.  
I'm a union man in a union war  
It's a union land I'm a-fightin' for.  
That company union made a fool out of me.
