"Dead Inside"

well you told me i was perfect for you and made me
think
i was
and hid from me your boyfriend who soon showed up
and rightfully stole the one thing i ever loved
then you told me i could never see you and made me
what i
am today

i was alive, now im dead inside
i'll watch my insides coming out tonight with this knife

so i sent my biggest friends to his place to let him know
how far
this threatening my life would get him here
and made the big mistake of my whole life
dont you see what happens when you tell a lie? now
people
lose their lives
