pushing through salahad-din  
someone knows what happens  
and if you get down you might not die  
kill the men and children

take the goods and women  
oh if you go home you might not die

hide on the ground [x2]

don't make a sound [x2]

we will uncover you

blood on the ground [x2]

deafening sounds [x2]

they would take turns with you

up and down the sand is  
making me feel ages  
of heinous abuse i might just die  
mercy comes if given  
i am not Elohim  
so if you show none you might just die
