### *[Verse 1]*

We sank down under the sand  
Down with the creatures  
Where we found ourselves lying around  
Searching for something so much  
More there's so much here  
Why do we bend ourselves  
Baby it's just a kiss  
Why do we compromise

### *[Pre-chorus]*

It's over my neighbor  
I'm under such pressure  
If Heaven is waiting  
There's nothing left here for me now

### *[Chorus]*

Now we're fading into this world of  
Desire and shame  
There's nothing less radiant

### *[Verse 2]*

Lie awake eyes on the wall  
Packing back and forth through  
Ever night there is a change  
There is an obvious change  
When we feel undenied  
Why do we go unreserved?  
Lights out open thighs  
Run away, oh run away

### *[Pre-chorus]*

### *[Chorus]*

### *[Bridge]*

On my face there is a change  
And all these scars are floating away

I cross my arms and take on the rain  
I'm on my way I am awake

*[Chorus]*
