*[Verse 1]*

I am on my way to something small  
The turning of a year and I am raw  
Stripped away surrounded by the trees  
On mountains urging me to fall asleep or

*[Chorus]*

Fall in love and crumble while you can  
Freeze the world in time to understand

A way to trust in turbulence

*[Verse 2]*

Wonder how much longer we can take  
That's silly we can last at least a week  
The turning in my stomach has increased  
And no one knows like branches how we sleep

*[Chorus]*
