(\*singing\*)

[Hook: Lady Kim & (Yung Gun)]

Boy I don't know, what I really wanna do  
But right now, I really wanna mob with you  
So what you do with your boys, is on your time  
And as long as we together, we gon always shine  
(girl I don't know, what I really wanna do  
But right now, I really wanna mob with you  
So what you do with your girls, is on your time  
But as long as we together, we gon always shine)

[T-Pop]

I'm loving you baby, I know that you loving me too  
How I caress your body, and always keeping it true  
And boo, you the love of my life  
We got two kids of our own, plus I made you my wife  
I'm up in these streets, trying to live the good life  
Wanting a house and a car, but my money is tight  
But not for long, because things'll get better  
Chasing the feddy in all weathers, got me clutching  
barettas  
But I ain't tripping, there's a God up above  
Just keep your head above water, he'll show you some  
love  
It's not the end of the world, but we up in the last days  
You gotta do what you do, and that's try to get paid  
Because it's hard up in these streets, if you don't work  
you don't eat  
If you real then don't cheat, stay solid as concrete  
If in between the sheets, there's gon be some love  
making  
Body shaking, and a bunch of penetrating

[Hook]

[Ben]

Girl you seen me at the Kappa, sitting on chrome  
And ain't no doubt in your mind, you wanted to take me  
home  
The bone is out on the road, cause I was the man

Can't you tell by the piece and chain, and ice on my hand  
I understand, it's hot outside that's why I leave you home  
And don't answer my phone, so you could leave me alone  
Then get gone in my zone, while I'm thinking bout you  
With no doubts in my mind, that you my one and only boo  
So said you could be with me, and we gon make it happen together  
Staying stronger than leather, in any type of bad weather  
It's whatever, them FEDs want a nigga but can't find  
And I'm still on the streets, ducking and dodging on my grind  
And in time, we both gon have whatever we dream  
Baby girl I love you forever, cause you my ghetto queen  
And it seems that no matter what, I'm still doing my thang  
So just chill, and one day you gon have a look at your ring

[Hook]

[Lady Kim]

Baby, I know you gotta get your hustle on  
I ain't worried bout a damn thang, cause the love we have together is so strong  
I'ma always be down for you, this ghetto love is gon be staying true  
So keep it real in the game baby, cause you know you know you drive me crazy

[Hook - 2x]

(Lady Kim)

Your my baby, and I love you  
Oh yeah I wanna mob with you, baby baby
