I will swear to never tease you
Oh no, when you play with me
Make me shiver, like a flower
Oh lord, do you feel for me
(chorus)
All day all night, love like candy
All day all night, this boy wants more
All day all night, love like candy
All day all night, one bite more
I'm addicted to you, baby
Oh no, I hunger for you
Do you need a piece of my love
I need your touch'n'funky, wet
(chorus)
Love like a needle, that burns through my vein
Going up to my brain, and back down again
Say hey sugar honey, say what's your kick
I know mine is you and that's no lip
(chorus)
