Someone was 'round here asking questions
About someone who looks like you
I said I don't know where you are
Sounded like he was gonna to be back someday
So I told him where you are

She's making it all come true this time
She's making it all come true this time
She's making it all come true this time

This has not been the first time
This will not be the last
He only knew slow moves in the past
I hope you are not too fast to last

She's making it all come true this time
She's making it all come true this time
She's making it all come true this time

She's making it all come true this time
She's making it all come true this time
She's making it all come true this time

Got to find the brightness in the soul
Not look outside to find out where we are
Oh, you won't be satisfied
Until you make possessions of the stars

She's making it all come true this time
She's making it all come true this time
She's making it all come true this time

Someone was 'round here asking questions
About someone who looks like you
I said I don't know where you are
He said that he was going to be back
I told him where you are

She's making it all work out this time
She's making it all work out this time
She's making it all come true this time
