(music arcwelder/words s. macdonald)

I have this dream involving you and me

It grows then fades changing every day

Fine tune it then it fades out again

Feel like I'm a criminal

[chorus]

Could it be - you don't try to understand

Now could it be - you should lead and not command

Now could it be - I won't give in to your demands

Feel like I'm a criminal

Am I that dense - you tell me "no offense"

Then criticize right between the eyes

Black dirt white grain - ideas wash down the drain

Step back away - listen to what you say

It's got to go and I think you should know

Feel like I'm a criminal

[chorus]
