Come Back And Stay  
I walk in the rain  
Trying to wash away the pain  
You went away  
I made you cry so many times  
Where do broken hearts go  
How can broken hearts find their way back home  
When nobody cares about you  
And you're feeling blue  
Come back and stay  
Don't keep me waiting  
(baby)  
Come back and stay  
Don't say goodbye  
(Don't let my love die)  
Come back and stay and try again  
Don't walk away for I'm still your man  
Where are you now  
Where did you go  
Come back and stay  
Don't keep me waiting  
I miss you  
I walk in the rain  
Thinking about the games I played  
I am to blame  
I lost my lovin' yesterday  
Where do broken hearts go  
How can broken hearts find their way back home  
When nobody cares about you  
And you're feeling blue  
Come back and stay  
Don't keep me waiting  
(baby)  
Come back and stay  
Don't say goodbye  
(Don't let my love die)
