Woke up to reality on the day you let me go  
Am I too blind to see?  
Just let me know  
Oh, I need to know for sure  
Cause I want your love once more

Hold me one more time, cause baby I love you, love  
you, love you  
Hold me one more time, cause baby I need you near  
me  
Hold me one more time, cause baby I love you, love  
you, love you  
Hold me one more time, cause baby I need you need  
you forever

You said that you feel alone, but don't just run away  
I'll always be there for you  
Please stay another day  
Oh, I have to let you know  
That I just can't let you go
