This stormy world can feel so cold
And oh so lonely
With no one to hold

But when I'm here beside you
My days all feel like summer
I'm glad this sweet girl
Is all mine

Chorus:
We'll rise like the sun
Forever the two of us, together
We'll rise like the sun
Together the two of us
No love could be better
We'll rise like the sun

Through the rain
We found our way
Left our tears
With yesterday

But when I'm here beside you
My days all feel like summer
I'm glad this sweet girl
Is all mine

Chorus

I'm living for the moments
I can spend so close beside you
Our love will live eternal
Now you're mine

Chorus
