Evil eyes locked inside a lonely room

The feeling lies
no matter what I try to do.
Make me smile
make me fly
make it right.
The sands of time are slipping through my hands
tonight.

When you're cold as ice
how can you dream of love?
When you're cold as ice
how can you dream of love?

I believe the world is tied in a dream

And no one knows what is true or what is real.
When you're cold as ice
how can you dream of love? . . .

Some how - show me how to live
show me how to carry on.
Some how - show me how to live
show me how to carry on.
Show me how to give all that I can give

Show me how to carry on.
Show me how to give all that I can give

show me how to carry on.

When you're cold as ice
how can you dream of love? . . .
When you're cold as ice
how can you dream of love? . . .
