Movin'on...
I would fly over the stream
The little letter in peace
I would escape from the world
from every boy and every girl
I'd look up to the rainbow
the skies up to the stream
I'm searching for this freedom
To stream into the ocean
To be myself, moving on
Take a boy, to be free
be myself, moving on
Take a boy, to be free
be myself, bring my bills
moving on, sing my song
Take a ride, on la la's bike
here we're free, you and me.
This is a message for you
This is my melody blue
If you believe in your dream
because you're locked on with me.
I'd look up to the sunshine
The sky meets to the stream
The way we up again
I'm sleeping in my dreaming.
To be myself, moving on
Take a boy, to be free
be myself, moving on
Take a boy, to be free
be myself, bring my bills
moving on, sing my song
Take a ride, on la la's bike
here we're free, you and me
