I'm a losing fighter
Ear bleed Tyson
I hear you but say it louder
Shout it 'til I feel it

Shot down those tiny daggers from your mouth
What have all these years been about?
I won't put up a fight
Where did you sleep last night?

You's a badman, bury me under the willow
Won't you tell me where you've been, blow by blow
Badman, bury me under the willow
Your words are killing me, killing me, blow by blow
Blow by blow, blow by blow, blow by blow

Lover or sinner
What did you see in her?
You're taking the kiss
Cause I can taste her
On your lips

Let your heart confess and lay me to rest
How could you do your girl like that?
I won't put up a fight
Where did you sleep last night?

You're a badman, bury me under the willow
Your betrayal hitting me, blow by blow
Badman, bury me under the willow
Your words are killing me, killing me, blow by blow
Blow by blow, blow by blow, blow by blow

Your hands are ties, your lips true lies
I won't put up a fight
[x4]

You're a badman...
