Verse 1:

Take the broken parts of me  
Repair my willing heart  
I put my faith in the unseen  
I feel You right beside me  
Break me down, and take me over

Chorus:

I hear You calling my name, I'm broken and changed  
So I'll let out what's on the inside  
I'll stand up, and be Your love  
Just let me see the world through Your eyes

Verse 2:

A million times I've made mistakes  
And a million more You've covered me  
Pushed my walls until they break  
I feel You right beside me  
Break me down, and take me over

Bridge:

I'm never going back  
To the way I was
