All day I'm living for You
Always I'm singing
I won't back down or give up this fight
I won't back down or give up this fight

My life I give it to You
My soul my all and I'm singing
I won't back down or give up this fight
I won't back down or give up this fight
I won't back down or give up this fight
I won't back down or give up this fight

All around the world we sing Your praise
Sacrifice our lives to lift up Your name
We are singing out our heart's cry
All around the world we need You
United we will stand for You

We won't back down or give up this fight
With You our God we must unite
Today we join for the world to see
