Many years spent living low  
Many years spent living low  
Inside a crater hole  
Thinking what else could go wrong  
Since we're living at the lowest  
With the damage done

All we knew when we were young  
Was how to manage on a planet  
Full of crater holes  
Almost everybody knows  
How difficult it is to find a footing

And it rained down on the lawn  
We swore those stones were from above  
And we waited on the storm  
To close but it continued on

Truth and time walk hand in hand  
We spent our time searching out  
A hidden promise land  
Carving gouges in our tread  
We soon noticed that  
Those holes were everywhere

It rained down on the lawn  
We swore those stones were from above  
And we waited on the storm  
To close but it continued on  
It continued on  
It continued on

And it rained down on the lawn  
We swore those stones were from above  
And we waited on the storm  
To close but it continued on  
[x2]

It continued on
