

## Rue Royale

### "Foreign Night"

On a foreign night we spoke  
Telling stories of what it would be like when we got  
back home  
In the fading light we hoped  
That as we grew old those memories would never let us  
go

When we're together we survive  
To stick it out another night of waiting  
We dream together to survive  
To stick it out another night of waiting

Crossing borders is all we know  
Marking up a map, the passage that we're taking as we  
go  
All the buildings made of stone  
Cause a jealousy as we drive by them in our rolling  
home

When we're together we survive  
To stick it out another night of waiting  
We dream together to survive  
To stick it out another night of waiting
