The road ahead is difficult indeed
We'll go on alright, we'll go on alright
Though it's painful to let go so many things
We'll go on alright, we'll go on alright
We'll go on alright

Painting images we're petrified to leave
We'll go on alright, we'll go on alright
When nostalgia gets the better part of me
We'll go on alright, we'll go on alright
We'll go on alright

There's an awful lot of history between us
We'll go on alright, we'll go on alright
There's an awful lot of history in our tears
We'll go on alright, we'll go on alright
We'll go on alright
