[Killa Bamz]

Red dog Ebonese, half Gotti and Lebonese

You see me posted, lifted like my tape to text

Poverty projects son, and I ain't scared to talk

Newport, five percent of New York, spray darts

where you walk, cocoahead peers, throwin Shaolin
spears

Floatin through the Village, trapped in design to shine

Pillage, war between the thug and the con

As for the father reborn, castle in the mind

Mind blind and captive, warfare be inner-active

Bamz is savage hard to substitute

Smoke the hydro root, in a casual suit

I'm tryin to walk these dogs but I'ma dog myself

Get my wealth for delf, hard rock crews is so-low

Stagnate, thoughts of payin dues

Gotta prop the holes in my suit, Bamz foot style

is Shaolin Isle, spend Valentine in the cooler

Get the CREAM dula, figures and dollars

Stuck I make a thug holla, swarmin the bees who rock
the Walla

Po-Po lookin for collars, peep the whole scene

Make it happen, Shaolin, dart clappin

Prepare for this war we assassin, but now I'ma chill

for a minute, smoke bones of hydronetic and get
pathetic

Sources is similar to full drum when we swarm

Rock my red cape like Spawn

Shaolin breathin in a hailstorm, teachers of Allah

know it's best to quote the topics

Shaolin trees from prophets, representin Shaolin

We gonna die for this, so don't you never fail

Like crews who soul miss, tamper doors open

and your death wish, peepin analyst

Bamz who got the mad new shit

[Cappadonna]

The pillage, the pillage, the pillage
Oceanwide, Donna on the outside
Cyanide, killa bee hive, homicide
His side is gone, it's on, my uniform is Uno
Acapella was take two, respect due
No commercial I teach though, I reach those
higher heights, mic to death, words of wisdom
Words of a architect strike, hype is the crowd
Down low is me, Bamz sugar free
Check we radical dub, nightclub punish the club
Attack hate runnin with love, better grub
Dick em down easy, past sound, pass out
Pass it around, grew up in The Tunnel
Tracks against Wu rap debut, top article
Spin it again, sign of the time rhyme
Top of the line, bottom of the Pyramids
Stretched in the alphabet, wet dust Moet, poet threat
Evil cassette wreck shows, rip any set
Direct approach coach a emcee, toast a emcee
Don't provoke me, toast to me W-T-C
Fade is still bushy, spot the best pussy
Keep my gears flashin, ready for the action
Fatal rap attraction, mic that rock the cradle
Razor Sharp label, ferryboat
Park Hill Gallo and the Sable
Martin Luther King Islam Rodney King
Two to four work release time in the bang
Big guns lawyers dirty cops naked in the box
Puerto Ricans, Africans, one Ox
Bowl of rice Trump, poor people
Plus meat that tastes lethal, we all not treated equal
The bible, the thirty-six tribal
Trials and tribulations, survival
Drugs as my retardation, masturbation
False identification, one nation
Blood, mud, water, togetherness
Terrorist, peace to all thug, Hennesey in the jug
Box cutter under the rug, that'll cut your whole mug
You bugged, kid, fuck off
