Me and Joseph and Charlie McGee
Took a ride in a limousine
Took a trip on a mescaline
We took it all the way
We're gonna be real rock and roll stars
Bigger than my brother on my handlebars
Hotter than Madonna on a samovar
Hotter than all you know

I know that we'll make it out alive
On the end of Highway 25
We've got the time to talk about it

I see your face when I look at the sky
And every time I close my eyes
There's a hundred and five ways I can die
But only one way I will go
Me and Joseph and Charlie McGee
Took a ride in a limousine
Took a lift on a heresy
We took it all the way

I know that we'll make it out alive
On the end of Highway 25
We've got the time to talk about it
