Now is the time to raise the HATE inside  
To be reborn and face this truth with courage  
I will be near when all your dreams are lost  
With raging violence, I'll break the strength in you

[CHORUS:]  
And the killing ends!

Prepare to see what you have done to others  
For the time will come when I surpass these feelings  
From deep inside from deep my inner self  
With raging violence, I'll break the strength in you

[CHORUS:]  
And the killing ends!  
You will break!

Memories passing by  
We bleed... mercy!

Mercy!

Memories passing by  
We bleed...

Now is the time to shred your hopes apart  
To see within your deep, sick, human pleasure  
This is the chance to make it all worth  
With raging violence, I'll break the strength in you

[CHORUS:]  
And the killing ends!  
You will break!  
And the killing ends!  
You will break!

You will break!  
Break!
