I breed, I crawl inside, I can't understand  
No more no less I fight, I cant't hold it all  
The rage, the pain, I see so much to be seen  
Away, too deep I pray, I try to escape

So much you take, can't breed, trying to be free  
Escape, deceive, prepare, time to create  
So far, so deep, insane I taste the fear  
To dream, to hear, noone can overcome

[CHORUS (x4):]  
I fight the pain  
SuffocHate

Feed the hole, feed the hole, drowning...  
Feed the hole, feed the hole yeah!  
So I fight, try to become senseless to the pain  
And deep inside I feel it come...  
Coming, coming back, coming back!

In me, the end, can feel it becoming too intense  
So hard, so loud, so vain, so innocent  
I kill, I seek, I feel, raging inside  
Left hand, can't hold, too cold now pull the trigger

[CHORUS x4]
