

## Runaway Cab

### "Money Bags"

Visit "[Money Bags](#)" on [MotoLyrics.com](http://MotoLyrics.com)

See the sky close up at midnight from the back of a  
limousine  
Grab your money bags and hold tight  
Take a ride you've never seen  
Yeah

You knew that they were coming  
Still you took way to long  
You spent your best years running  
Running  
Now you'll never be home again  
Again

The word is out all over town because the back has got  
the hots for you  
Abra kadabra  
Step inside 'cause I got a magic trick for you  
Yeah

You knew that they were coming  
Still you took way to long  
You spent your best years running  
Running  
Now you'll never be home again  
Again

You knew that they were coming  
Still you took way to long  
You spent your best years running  
Running  
Now you'll never be home again  
Again  
Now you'll never be home again

You new that they were coming  
Now you'll never be home again

You new that they were coming  
Now you'll never be home again
