Three wise monkeys hanging from a tree
Hiding themselves from the pigs in vans
A big fat ass was waiting for them
They were talking of the blue blue sky

They were in the tree and suddenly "klaz"
The shaggiest started to sing
Stupid brain, strange fragrance
Even though they were walking
They kept hanging from a tree

Hanging from a branch, they left the morning
Looking at the sky! they were only too high
The world was up side down... inside out

Time was slow (what were they talking about?)
What were they talking about?

Stupid brains! Slack brains! Burning brains!
One last "klaz"!!!

Ulea passo, do elefantinho
