I had a fucked up night
I was fighting again
A long discussion with my brain
He refused beer and I didn't care
He let me there and ran away

I'm gonna get him, gonna catch him
He can run, but I won't let him go!
I'm gonna get him, gonna catch him

I am looking for my brain (again!)
Now I'm not the same
I can't live without my brain

I lost my brain, where is my brain? I need my brain
(I don't know!?!)

I'm gonna get him, gonna catch him
He can run, but I won't let him go!
I'm gonna get him, gonna catch him
He can run but I won't let him go!

I am looking for my brain (again!)
Now I'm not the same
I can't live without my brain
I am looking for my brain (again!)
Now I'm not the same
I can't drink without my brain

I am looking for my brain!
