You wake up on the wrong foot
The amount of your bills are getting
bigger and bigger and bigger
Your Senseless understanding
Is the reason for your loneliness
Some problems are driving you mad!

If there's nothing that can make you happy
If the solution is so far away
Listening to this song is a better way
Ska is your medicine...
Right! Oooooooo! Pick it up! Ha ha ha!

If you don't have anything to do
And your mind is working all day
Take a break, calm yourself... listen to the ska
You can write a song...
And cheer people up, HEY!
You'll be doing something great
Now you recovered that smile.

If there's nothing that can make you happy
If the solution is so far away
Listening to this song is a better way
Ska is your medicine...
Right! Ha ha ha! Oooooooo!
Yeah yeah yeah! So far away!

If there's nothing that can make you happy
If the solution is so far away
Listening to this song is a better way
Ska is your medicine...
It is your medicine!
It is your medicine!
Ska is your medicine!
Ska is your medicine!
Ska is your medicine!
