Blue lights shining through my window
I've been driving for days
You on the other hand
You're always sorry for things you've done
Well I kind of wished you'd stay
Yeah
Hey

Ooh
Doesn't anybody know the way out of here
Would they know
Could they show the way back home
Gotta go
Gotta go
I could lose it all in here
All in here
Don't need your rhyme or reason
No

Lonley
Winding
Black top highway
Ah
Gotta keep these secrets in the dark
Don't you think I'd listen to the words that you say
Those same words in my head were the kind that wish
you'd stayed
Yeah
Ah

Ooh
Doesn't anybody know the way out of here
Would they know
Could they show the way back home
Gotta go
Gotta go
I could lose it all in here
All in here
Don't need your rhyme or reason
Oh no

Still you say, "Take it easy"
Yeah
You say, "Take it easy"
So c'mon

Take it easy
Take it easy
Baby we're almost home

Take it easy
Take it easy
C'mon

Take it easy
Take it easy
Baby we're almost home

Take it easy
Just take it easy

Doesn't anybody know the way out of here
Would they know
Could they show the way back home
Gotta go
Gotta go
I could lose it all in here
All in here
Don't need your rhyme or reason

Doesn't anybody know the way out of here
Would they know
Could they show the way back home
Gotta go
Gotta go
I could lose it all in here
All in here
(No)
Don't need your rhyme or reason

Yeah
