Don't cry baby
It's okay now
I'm here for you

Don't say
It is too hard
I'll be by your side forever

Your smile
Is everything to me
Your love is gold

We'll find
Somewhere out there
A place that is meant for us

Baby you're the one
The one I need so badly
I don't know what I'll do
If I didn't have you

I will wait forever
I don't care if I died
I just need to see your smile
Before I close my eyes

Before I close my eyes...
