You know we never see eye to eye  
Try to explain and you ask me why  
A sinking feeling when I see you there  
I should have known that you would never care  
Too many times thinking this would change  
I should have known it would stay the same  
You know we never see eye to eye  
Try to explain and you ask me why

Saw what you did, heard what you say  
What the hell are you doing here anyway? [x2]

So here we are at the same place again  
Another night, nothing happening  
I got excited when you leaned on me  
But then you never say what you mean  
Why did you ask me out tonight?  
Why call me up and say the time is right?  
Now its time to put down my head  
With or without you I'm going to bed

Saw what you did, heard what you say  
What the hell are you doing here anyway? [x4]

You know we never see eye to eye  
Try to explain and you ask me why  
A sinking feeling when I see you there  
I should have known that you would never care  
Why did you ask me out tonight?  
Why call me up and say the time is right?  
Now its time to put down my head  
With or without you I'm going to bed

Saw what you did, heard what you say  
What the hell are you doing here anyway? [x4]
