Woke up with yawn, it's dawning, I'm still alive
Turned on my radio to start up new day
As goddamn DJs chattered, how to survive
Amazing news got through the air wave

Tonight, love is rationed
Tonight, across the nation
Tonight, love infests worldwide
Almost another day

Woke up with yawn, it's dawning, I'm still alive
Turned on my radio to start up new day
As goddamn DJs chattered, how to survive
Amazing news got through the air wave

Tonight, love is rationed
Tonight, across the nation
Tonight, love infests worldwide
Almost another day

She's a shooting star, goodbye, goodnight
She's a shooting star, goodnight, goodbye

Tonight, love is rationed
Tonight, across the nation
Tonight, love infests worldwide
Tonight, love is rationed
Tonight, across the nation
Tonight, love infests worldwide

Almost another day
See you some other day
