There's a girl, I saw her walking past me...
Did I stand a chance?

Now it's late at night...
She's chatting with me now...
Would I, dare to ask her anything at all?

Oh baby, you're the one, the one I need...
Oh girl, without you, I just don't know where I stand...

It's been days, since I told her...
Would she reply me soon?

Should I leave her, cause I'm just a nerd...
Someone who can only survive in the shadows...

Oh baby, you're the one, the one I need...
Oh girl, without you, I just don't know where I stand...

So don't leave me, stranded here, stranded here
alone...
Cause I need you, you babe and it's true...
I Love You...
