Chorus x12

[Mystikal]

Let me hit
Let get it
turn around give it to
already know what I want
Fuck all that beat around tha bush
make up yo mind
Bitch do what you dont
9 times out of 10
them jackers sit here
probably you dont
id rather pull a bitch drows to the side and smell here
funky
pussy stunk
I aint tripping on the stupid
Id rather have a good time in this bitch
trying to get my smoke on
what you got cigarettes
(ah thats it the bitch got to be stopped hold)
I still got a guard left over from last night
Damn I like to forgot
I dont blow no joes
But inhale some weed smoke
Id rather be hitting you from the back
if you really dont know
she said my periods down
Ita be gone in a minute
then she said
I thought you had some weed
then tha bitch said
let me hit it

chorus x17
