I'm Over You

Let's party

All night long

Whoo

Standing in the sun all day long

Doing what I can what can go wrong

I am out of danger sing the whole song

I can see your eyes blinking at me

I can see your eyes winking at me

I am positive you're thinking of me

And if the sun comes up

And you're not here

Baby I feel I can control my fear

You're wishy washy down the drain

I'm hoping you can feel the pain

Cos I am over you

Chorus

I'm over you

Cos you're not here no more

I am over you

Cos you're gone out of my life

And I am over you

Hook

Mix it for ya

Better for ya

Yeah

Mix it for ya

In the fire

Yeah yeah yeah

Betcha didn't know we would stop there

But if you ask me I think it's fair

I know I'm gorgeous but don't stare

Packing what I know into my brain

I can't believe you thought that I felt the same

I can't believe you thought I'd have no fame

Oceans flood the land

You're not there to hold my hand

But do I look like I'm caring

Your life won't save in a pit a grave

You must behave you are my slave

You know what you are

You look like a star

But you're not gonna get far

Chorus x2

Hook

Check it out

And if the sun comes up

And you're not here

Baby I feel I can control my fear

Your life won't save in a pit a grave

You must behave you are my slave

You know what you are

You look like a star

But you're not gonna get far

You're not gonna get far

Chorus x3

Hook

Check it out y'all
