I was low, didn't believe in getting high  
Didn't know how easy it is to walk through the fire  
Oh but you opened the sky through my heart  
You let in the light from the dark  
It's like the first time I've realized that  
All you need is love

And I feel it (and I feel it)  
Never letting go  
Oh you take me (take me)  
Somewhere off the globe  
Do you feel it, it's like the first time I've realized that  
All you need is love  
And I feel it (and I feel it)  
Never letting go  
Oh you take me (take me)  
Somewhere off the globe  
Do you feel it, it's like the first time I've realized that  
All you need is love

All you need is love

I was saved  
There is nothing to fear when my heart's pumping  
All the way, yeah, up to the edge and now if I'm  
jumping  
Oh but you opened the sky through my heart  
You let in the light from the dark  
It's like the first time I've realized that  
All you need is love

And I feel it (and I feel it)  
Never letting go  
Oh you take me (take me)  
Somewhere off the globe  
Do you feel it, it's like the first time I've realized that  
All you need is love

All you need is love

And I feel it (and I feel it)

Never letting go  
Oh you take me (take me)  
Somewhere off the globe  
Do you feel it, it's like the first time I've realized that  
All you need is love

You opened the sky through my heart  
You let in the light from the dark  
And I feel  
And I feel  
And I feel  
And I feel

And I feel it (and I feel it)  
Never letting go  
Oh you take me (take me)  
Somewhere off the globe  
Do you feel it, it's like the first time I've realized that  
All you need is love
