

Wrights "Down This Road"

Visit "[Down This Road](#)" on MotoLyrics.com

I know you don't feel the way you used to
Did the best you could I know you tried
Oh hunni, don'tcha feel to bad
I ain't really all that sad
I've been down this road a million times

A few more days and it'll all be over
I read all the books on gettin' by
Oh hunni, if you see me cryin'
Don't you worry I'll be fine
I've been down this road a million times

And let me make just one thing clear
My heart won't lie about the way I feel
I've taken all the love I could possibly steal
I've been down this road a million times
If you ever get to feelin' lonesome
Just around the way c'mon by
It's ok if you don't stay long
I'll be fine on my own
I've been down this road a million times

Yea it's ok if you don't stay long
I'll be find on my own
I've been down this road a million times

Oh, I've been down this road a million times
Oh, I've been down this road a million times
