Rewind, take it on back To when you were mine Who knows what old feelings We might find

Rewind, get it on track Move it on down the line Let me love you one more time Rewind, baby rewind

Yesterday we left so much behind Such a love I?ve never known the kind

Rewind, get it on track Move it on down the line Let me love you one more time Rewind, baby rewind

This old world?s been Spinning way too fast Let?s stop right here And make the moment last

Rewind, take it on back To when you were mine Who knows what old feelings We might find

Rewind, get it on track Move it on down the line Let me love you one more time Rewind, baby rewind

Let me hold you one more time Rewind, baby rewind Let me love you one more time Rewind, baby rewind
