Your flesh is red your blood is cost
Your heart is dead your soul is lost
Your hands are of white sands and your backbone's so
strong
Your life is in judgement and your thinking is wrong

Untermensch I ignore you
Untermensch I am your fate
Untermensch I'm longing to kill you
Untermensch I'm born out of hate

Your pride is unbroken and your head stands high
Your bones are token your will is justified
I adore you as i stand alone
And i linger to murder you cause i'm not made of stone

Untermensch I ignore you
Untermensch I am your fate
Untermensch I'm longing to kill you
Untermensch I'm born out of hate

Get the fuck out of here

Your pride is unbroken and your head stands high
Your bones they are token your will is justified
Your hands are of white sand and your backbone's so
strong
Your life is in judgement f?rchtest du den schmerz
your thinking is wrong

Untermensch I adore you
Untermensch I am your fate
Untermensch I ignore you
Untermensch I'm born out of hate
