Would you love me if I told you that I could not
Hold you closer tonight, to my arms just might
Break me and make me fall down
Trip me up and hit ground
I don't want to be there
I don't want to be
But I feel

[Course]

A new emotion, a deep devotion
And a notion, that I will find you
Alright, tonight and I might, fall again

So would you stay if you knew
That I only would leave you
Sadden up and lonely
And I think of you only
In my dreams we would walk
And in my dreams we would talk
Hand in hand together
Hand in hand of you

[Course]

A new emotion, a deep devotion
And a notion, that I will find you
Alright, tonight and I might, fall again
I might fall

I don't want to see the news
I don't want to feel the rain
That's falling on my face again
I don't want to see your face
On a billboard store
Don't want to grow old this place no more

So would you think me crazy
And would you laugh forever
In my arms you would be
In your eyes I could see
All the stars of that night
And I hoping you might

Swear I seen your eyes before
Swear I seen your eyes
And I feel

[Course]
A new emotion, a deep devotion
And a notion, that I will find you
Alright, tonight, I might, fall again

I might fall, again
I might fall, again
I might fall, again
I might fall
