VERSE 1

Nice not to see you
We need a change
This blowing up
Is haunting me again
Bring back the silence
That can't be broken
This beating heart
Has my eyes wide open

Now
It stands
I'll take
My ground
More
Than words
Will make you learn

CHORUS

Face the bull, one on one
Fake to the right
And watch him run
He's going down
Down he drops with one

VERSE 2

Nice not to know you
We don't compare
This mix is cold
Exposed to the air
Bring back the light
That's too bright to follow
My inner peace is far from hollow

Now
It stands
I'll take
My ground
More
Than words
Will make you learn
