Things will come even if you don't know it  
things will happen even if you don't care

don't you blame your self for being out there  
things will happen even if you don't be there

Help - no one can here you screamin'  
Help - that is the meaning

Don't be a afraid - his always behind you  
don't be a afraid - his coming to you  
don't be a afraid - let me remind you  
you are not alone  
you are not alone

Something bigger than you can imagine  
something deeper than the widest sea  
eyes are watchin' of course you can not see them  
something different and it's here for you

Help - no one can here you screamin'  
Help - that is the meaning

Don't be a afraid his always behind you  
don't be a afraid his coming to you  
don't be a afraid let me remind you  
you are not alone  
you are not alone

Help - no one can here you screamin'  
Help - that is the meaning

Don't be a afraid his always behind you  
don't be a afraid his coming to you  
don't be a afraid let me remind you  
you are not alone  
you are not alone
