You tell that you want me (want me)
you tell that you want me
so why do you hate me (hate me)
so why do you hate me(hate me)

you tell that you need me (need me)
you tell that you need me
so why do you leave me (leave me)
why do you leave me

I dont understand what you doin' to me...

Who want's to live with a broken heart
who want's to live here alone
don't wanna stay by your side anymore
when your feelings are gone

Who want's to live with a broken heart
cut's in my heart like a knife
don't wanna stay by your side anymore
don't wanna be - a part of your life

I can tell that I want you (want you)
I can tell that I want you
so why do you hate me (hate me)
why do you hate me (hate me)

Everytime that I see you (see you)
Everytime that I see you
I want you to want me (want you to want me)
I want you to want me (want me)

I dont understand what you doin' to me...

Who want's to live with a broken heart
who want's to live here alone
don't wanna stay by your side anymore
when your feelings are gone

Who want's to live with a broken heart
cut's in my heart like a knife

don't wanna stay by your side anymore
don't wanna be - a part of your life

I don't understand what you doin' to me...

so why do you hate me
i want you to want me

who want's to live with a broken heart
who want's to live here alone
don't wanna stay by your side anymore
when your feelings are gone

who want's to live with a broken heart
cut's in my heart like a knife
don't wanna stay by your side anymore
don't wanna be - a part of your life

I want you to hate me
I want you to want me
I want you to want me
so why do you hate me
so why do you hate me
so why do you want me
I want you to want me
so why do you hate me
