"What To Come"

My father told me son just have some fun
I follow his advise and now I always on the run

I think it's easy now to live the life I had
even it's hard sometime I don't think it's bad

Live your life before it's over and done
it's time to wake up now
you don't know what to come
don't know what to come

My mother always worried for me no matter what I do
but even if I'm drunk or bad she told me I love you

Sometimes my mind look back on the life I had before
but listen what I telling you and the life will give you
more
the life will give you more

Live your life before it's over and done
it's time to wake up now
you don't know what to come
don't know what to come

Live your life before it's over and done
it's time to wake up now
you don't know what to come
don't know what to come

Sometimes my mind look back on the life I had before
but listen what I telling you and the life will give you
more
the life will give you more

Live your life before it's over and done
it's time to wake up now
you don't know what to come
don't know what to come

Live your life before it's over and done
it's time to wake up now

you don't know what to come
don't know what to come
don't know what to come
don't know what to come
