I can see it in your eyes  
You don't even have to lie  
Why can't you be yourself around me  
I can feel it when we talk  
You don't have to play it off  
Why can't you be yourself around me

On the phone can't stop talkin  
Tellin me about everything  
Soon as I hit the sun and pop in  
You roll up tinted windows on me  
Don't wanna hold my hand in public  
You're afraid your boys might see  
Tryin so hard to prove them wrong  
I gotta trust my instincts

I can see it in your eyes  
You don't even have to lie  
I don't understand  
Why can't you be yourself around me  
I can feel it when we talk  
You don't have to play it off  
I don't understand  
Why can't you be yourself around me

I'm not lookin for a big time baller  
I don't need no fairy tale  
And I really don't wanna be bothered  
If you can't be yourself  
Everyone keeps saying that you feel me  
And if that's really the case  
You and me all the time baby  
Now stop hidin' (Behind those shades)

I can see it in your eyes  
You don't even have to lie  
I don't understand  
Why can't you be yourself around me  
I can feel it when we talk  
You don't have to play it off  
I don't understand

Why can't you be yourself around me

Why can't you be yourself around me oh  
I don't understand  
Why can't you be why can't you be  
Why can't you be yourself around me oh  
I don't understand  
Why can't you be why can't you be

I can see it in your eyes  
You don't even have to lie  
I don't understand  
Why can't you be yourself around me  
I can feel it when we talk  
You don't have to play it off  
I don't understand  
Why can't you be yourself around me
