Light is shinin', beauty sunshine
Here comes one-time, the ball was so fine
Heat is blazin', the kids were playin'
His partner was Shady, tryin' to slave the babies

Aiyyo they didn't know the cop was crooked
He had blow out in Brooklyn
All this while he let the fiends cook it
The baseheads stirred it up, plus they got to blow it up
Dropped it off in the J's and they bigged it up

Then one day, shit jumped off real crazy
The middle of a bathroom they find an old lady
No clothes, half of her tongue, ear missin'
The killer had to be mad smart, he wore mittens

Even though her leg was bitten
Crackheads point the finger at Detective slick Morris
Gittins
Paleface cop who done popped the desk
And got the chop on his neck from when he knocked
Celeste

It was a slug, drug, he pressured everybody on the
block
Some niggaz know him as the godson of Gotti
And his black partner, he was scared to speak
He saw how they planted weapons on these kids in the
street

He saw like over fifty bodies in like fifty-two weeks
He saw his colleague pick up money before leavin' his
beat
They call him desk duty, Robocop
Younger dudes call him Freddy Krugs from the way he
walk on the block

Light is shinin', beauty sunshine
Here comes one-time, the ball was so fine
Heat is blazin', the kids were playin'
His partner was Shady, tryin' to slave the babies

Heard the disturbance out the window, oh shit they got
my son
Pulled over his tempo, Brenda dropped the endo
Had her little nephew with her yo she didn't care
They always harassed her, until she blew the captain
with a razor

His partner turned red in his waist, mase done
smacked her
With the walkie, yoked her then slammed her on her
face
He bugged on her like she was drugged, plugged one
in her
The fifth relaxed her like a big thug pistol whipped her

Heard she was dusted, musta been the way they threw
the cuffs on her
She broke the shits, went and rushed the kid
Wavin' her hands, she had a half a axe, all in her tracks
He grabbed her by the air, she broke his jaw it cracked

More cops arrived, they both bloodied down by the five
Wildest niggaz just smilin' 'cause it look live
They gave her forty years in New Orleans, callin' me
boy
Shorty was young, by three days had a great bid

Light is shinin', beauty sunshine
Here comes one-time, the ball was so fine
Heat is blazin', the kids were playin'
His partner was Shady, tryin' to slave the babies

You're just worms in the worst part of the apple that's
rotten
You squirm and you turn from the right, still plottin'
All slimy 'cause you stay grimy, petty crimey cat
You sometime me, don't need to remind me about livin'
in the core

With the scramblers in front of the store
The bum holdin' the door, the mugging no one saw
We played ball in the alley where dope was shot raw
And the school they kept flawed, plus the lowest test
scores

Small percentage determined to strengthen they
position
Transformation from critical to, stable condition
But it still be obstacles on niggaz that's optical
Watchin' you like salt-water sharks that's tropical

The money was the root and it's the instinct to make it
With they pockets and fridge naked, many aim to take
it
Whether, hold up, set up, stabbin' or a wet up
Just to know it was the kid next door fizzaucked your
head up

Once he fell short, frequently visit the courts
And for some, another way out, is music and sports
That's why I, keep the rhyme just as fly as a shot
That won the championship, with just oh on the clock

Light is shinin', beauty sunshine
Here comes one-time, the ball was so fine
Heat is blazin', the kids were playin'
His partner was Shady, tryin' to slave the babies

Light is shinin', beauty sunshine
Here comes one-time, the ball was so fine
Heat is blazin', the kids were playin'
His partner was Shady, tryin' to slave the babies
