\* [Intro: RZA] Me.. me [Chorus 4X: RZA] (It's all about who?) It's all about me [RZA] Booga booga bang! Yo Enter the Wu-Tang Clan Get a god damn, yes I am the man and I'm gonna blow, make mad dough Girls sweat me cuz I've got the flow Not the one to front when it comes to a stunt I be quotin books like brothers smoke blunts and do what you got to do, hold your own Don't try to pass me just Pass the Bone I get slam just as the hit rams See? A girl flipped hands cuz she wanted to jam I told her, "Yo be on your very way I'm not gonna be your's, I won't beg you to stay" Hey, what's the hardest thing about it? Like De La Soul Between me, myself and I, it's a small world I have to figure out, what is life about It's all about me! [Chorus 4X] [RZA] Here I come, here I come with the Wu-Tang drum It ain't no fun if I don't get none So I got mines, you better get your's When it comes to Kim's, you better get your's Ooh, kind of frisky, could this be it? Risky I pull stings on you, like girls hit me The incredible, talk unforgettable Talk what I do, chew when I walk On Pillsbury dough, I'm hittin like a hoe Forty-five, then I strike like lightnin bolts in the sky, right for your eye I chop off the head of the guy that despise First to merk me meets the controversy Who'll be the first MC to try and curse me? Watch watch watch watch me knock him out and tell him what it's about, it's all about me [Chorus 4X] [RZA] Master of the Wu-Tang, here I am again About to ill again, kill 'em with my pen Check 'em check 'em, watch me as I wreck 'em Brothers jump up like a straw as I dissect 'em I was all wild when I fouled your whole style The crowd gets wild in the Isle, then I bow Gotta have it, see a mic, I grab it Here's a fat ass, fast I gotta stab it Hanky panky, the rap suckers thank me So many brides, I end up with a blank G See? I'm not the one to be played Got a gun now I'm not afraid Quick to put a savage in the grave The behavior possessed by the nature Population causes me to be a slayer So I walk around takin devils out and show 'em what it's about, me [Chorus to fade w/ variations]
