[RZA]

Yo... this song is...

Aiyyo Dunn this song is called Sunshower

Cause we approachin the final hour

You know I ahh all I can say to my brothers and sisters
right now

Is stay close to your families, and all your loved ones

Cause this globe is about to explode with hatred

They killin for pennies, knahmsayin?

Peace to the Gods, we got a heavy job... yo, yo

Trouble follows behind a wicked mind, 20/20 vision
of the prism of light but still blind

because you lack the inner, every sinner

will end up in the everlastin winter of hellfire

Throw on this mix just picks your third eye out

you cry out your words fly out, and sounds die out

You remain unheard, sufferin eternally, internal
external

Along with your wicked fraternal from generals to
colonels

Releasin thermonuclear heat that burns you firmly

And permanently upon this journey

Through the journal of the book of life

Those who took a life without justice

will become just ice ice ice

It's been taught that your worst enemy can harm you
as much as your own wicked thoughts

What devils fought we wrought, and let's annoint

Now you're bein persecuted by that universal court
court court

Iron hell with the strong blend of rape and blend of
sandal

with rose petals and jasmine, as men use talismans
Burn some incense, chantin witchcraft to reach high
dimensions

I'm convinced, Allah is God always has been always will
be

You could travel every square inch of the planet and
still be

Ninety-three million miles away from the sun

Til you realize you and the sun is one, like the

knowledge
Know the ledge to where your heart is
or fall off into the internal hell that's uncharted
Light travels at the rate of 186,000 miles per second
through time and space, until it reach a target
And once we're freed of darkness, and show em where
the path
Yo as the Red Sea was parted, into these straight
at the narrow gate, but why that's a road to destruction
and hate
What you thought life was a sport? A game?
One hundred years short, know the soul is immortal
Walk through many portals, and those who go astray
will pay a judgment day, and these few years of wicked
bullshit
ain't worth the eternity inside a sulfur lake
With dragons and snakes, and any pain you can
imagine
Instead, I chose to become a newlywed to the true
bread
of life and fed God Degree of light to my head
It's been said, the fool who sleep is already dead, so I
stay awake
And take care of my brother, and uncover reveal the
skin
so we can see each other, cause every color
that makes the light appear duller, who's the colored
man?
Who's the original, who's the biochemical
Who's the grafted digital, digital, digital, digital
Digital.. yo, yo, yo, yo, yo

Two hundred thousand million atmosphere cubic feet
of air we breath
While niggaz minds are trapped twenty thousand
fathoms beneath
the sea of reality, they can't inhale deep, devils have
em
Stagnant, a trapping, the .45 magnum
And shatter bone fragments
Cops love the block you gettin backed up by Dragnet

Thrown into a six by a steel cabinet
Flippin weights readin ancient tablets, back on the
block nobody's havin it
Those who haven't learnt get returned
You freaky ass niggaz get burned
Some walk around like they ain't concerned
with the hell goin on inside the world
The body of old men molest little girls
Is it because the girl's breast has swelled

to the size of a woman, although she's twelve
The whole world is sick, sick, sick
Trapped up in six, six, six
I started off as a pawn in this marathon of life
Tryin to carry on, wishin I had a bomb to blow up
Babylon
A vagabond, tryin to steal his corpse we're from
paragon
goin in circles, like a ferris wheel
Undernourished meals I cherish hope, drown inside the
sea of life
Use my third eye for a periscope, and take flight to the
edge of night
To far heights so dark that even wit a bright light
you couldn't see a spark of light
While others play ball, ID call, me and GZA Dirty
hangin in halls, bangin on walls
Kickin rhymes three hours straight with no pause
Boostin from Freeport sunrise to Amityville morgue
Kept razorblade between the jaws, breakin all laws
Started out writin fables to makin beats on lunchroom
tables
to wearin long cables that hung down to the navel
So pack some crack and fat sacks of skunk
to funnel the P-Funk, smokin woolie blunts
Dust cocktails and primos, shot more dice than casinos
Back when Wu-Gambinos were called F.O.I. MC's
All and together now crew B.C.C.
REC Posse, G.P., D.M.D.
Ol Dirty stalked East New York GZA maintained Franklin
Lane
I was going to time with the Jeff, when students got
slain
Polo got nervous walked me to Shaolin sent me to
Curtis
Took share time in Marquis, New God general
contractin service
While Meth Chef and Dead was off the Nu-dol
For white boys who took steroids
Buildin up bicep tricep pectoids and deltoids
Back when our girlfriends was virgins
Cuttin class with Ghost tryin to bag hoes in Mary
Birchem
A Maybeldine beacon night school Washington Irving
These young Gods was seekin
Hoes in Westinghouse and Clara Parton and Medina
Girls who sung like Sarafina
On the corner of Belmont and Picket Avenue I seen her
As if I dreamed her
I was dead broke, now I will use key notes to make G-
notes

So it's always hope
See subway train run through the city like blood
through the veins
To the heart of Medina, but Shaolin is the brain
So take heed to these words
And feel the power of the Sunshower

Approachin the final hour
Power equality, Allah sees everything
Let's come together under the wings
And take flight, Wu-Tang, the saga, Ryzarecta
In your sector
