Deep bring 600 ABC through the love white hate line
I'm telling you tornado, 42 billion thought travel
The year 90's parallel, controls to the wakes
I dig woman's stomach swell, my borough is dark
Many lights UFO kites, Benjamin Franklin got it right
Abraham I stuck your cherry tree
Your white head came out my black pussy
I ran Rip Van Winkle on all fours
Mountains twinkle twinkle star, Tarzan in a jar
And then came out Jane Flintstone in my gravel pit

[Method Man]

Kill the chatterin, niggaz bust shots, keep em scatterin
Blood splatterin, on point like a javelin
Fuck battlin, you cats is only good for babblin
Imaginin yourself, as the God space travellin
Round the seven rings of Saturn
Got my sword plus the Abbot in the chamber, nine in
the clip
At the gatherin, we left you staggerin, yo it had to been
Hot Nickel, who broke bread, at the Vatican
Stick a pin, in a citizen, mental food, got us diggin in

M-E-TH like amphetamines, yes stick it to the veteran
Blaow blaow! Blown to death, take your medicines
I put the sick in your mu-sick with Osirus
Bound to blow like a bad sinus

[Ol Dirty Bastard]

Stay up at night don't sleep on your morn
Rest in the day because it's sunlight
Reverse thought psychology

[Prince Rakeem]

Child wild adventures walk trillions of square inches
Ten percentage try to drain me of my mental

Heavy wattage knowledge cleans blood clottage, and
retardage
I refine the garbage logic exterminate your cottage

[U-God]

Thirty-six anger, dirty language is the stranger
The mangler, the honor roll singer righteous finger
When we shine-a, we always find a never minor major
Hard to spot we dangerous with our behavior

[Prince Rakeem]

Australian Venezuelaen illegal aliens
Chameleons all catch the feelings we revealing
Killer bee keep your mind at ease, lay back like Adam
fuckin Eve
Four thousand years in the garden, puffin trees

[U-God]

I aim slang I maintain, through the main vein
The answer came clever, when we do greatness
through trial and error
Mile of terror motormouth, let the odor out
Fumin greater, the temper in my spine huminator
The super grass childish blast sleepy eye stash
The hashish masterpiece, Osirus is the virus
This split second splash, severe drop is near pop
There's fallin teardrops, now is it worth your career?
